Noah Harborth, Front End Developer

Web Developer who is passionate about everything about web and tech in general.

I like to change things and build cool stuff.

I'm curious about everything new, that is why I like learning new skills.

I love working in a team with a relaxed and friendly atmosphere.

Employment History

Front End Developer at Kreativzirkel, Düsseldorf

November 2021 — Present

Created web apps with different tech like **CMS** or **React**. Mainly developed in **WordPress** with **PHP** and **JavaScript**. I created the **Frontend**, but also had a good amount of **Backend** Development.

Working for a small team as 1 of 2 devs at the agency was really diverse in terms of using and learning new concepts and tech. I also did smaller tasks outside developing like **product management**, **design** and **product conception**.

Some of my projects:
