Languages

- German - native
- English - fluent

Interests

- Tech and science
- Programming (started as a hobby and will always be)
- Movies and Series
- Gaming with friends
- Gym

Skills

- TypeScript
- React & React Native
- SQL
- Python
- PHP
- Node.js
- Jest & Mocha
- HTML/(S)CSS
- Vue

Work Experience

Check24 - Software Developer
May 2025 - Present

- Built Frontend with **React**, **TypeScript** and **PHP**
- Took over TheBot as sole developer, building a full-fledged **MCP** server - UI, tools, etc. - in a fresh **Fullstack** codebase (**React**, **TypeScript**, **MySQL**)
- **Architected** the **Turborepo monorepo** codebase from scratch and grew my **system design** skills

Elona Health - Fullstack Developer
May 2024 - May 2025

- Developed products for a **mental health Start-Up**
- Worked with **React**, **React Native**, **Redux** and **Node.js**
- Well integrated part of an **international** team

Kreativzirkel - Software Developer
November 2021 - April 2024

- **Web Apps**, **Shops** and **Games** for a wide spectrum of clients with different tech
- Developed mainly with **PHP (WordPress)**, **React** and **JavaScript**
- Both **frontend** and substantial **backend** development

Some of my projects:

[Kunstpalast](#) | [EVKK](#) | [20° Restobar](#)

Education

Hochschule Düsseldorf - B.Sc. Computer Science & Media
November 2020 - September 2026

Projects

- **LLM Token Saver** - Rust CLI that strips noise from command output to cut agent token usage
- **Agent Tool Sync** - TUI to sync rules, subagents and skills across AI coding tools
- **Bachelor Thesis** - Dictionary-based detection of political content using local LLMs
